

To register (associate) a Transmitter to a Receiver
Serial numbers 310000 and above use the procedure below.

Switch off / disconnect power from the Receiver unit
Turn on / connect power to the Receiver unit.
This opens a 20 second window on Receiver to
allow your new handheld to be registered.

Press / hold GREEN Reset button on handheld unit
Within 2 seconds press and hold Function 1 button
You will be holding both the Reset button and the
Function button / BOTH at the same time.
Hold both buttons for 10 seconds.

This procedure works for all models of Lodar
transmitters that have the STOP and RESET

If you have problems please call 877-257-1581
